Rapide Release Notes

Release 3.0.3

Contents

Important Notes	3
Fixes	3
Updated LOG4J Version	3

Important Notes

For this update you need to use GuardIEn 8.7.5 or later if you use GuardIEn to build Rapide applications. Do not copy the GDOPRAPG.dll to your GuardIEn folder unless you are using GuardIEn 8.7.5 or later.

Fixes

The following issues have been fixed.

Updated LOG4J Version

LOG4J java library has been updated to 2.16.0 which includes fixes for potential vulnerability issues.
